

Vehicle Safety Solutions

Product Catalogue 2015

English

Brigade

Brigade has been pioneering the cause of reversing safety since 1976, when we introduced the very first reversing alarm to Europe. We continue to lead the way in vehicle and plant safety, having extended our range to include all-round visibility, pioneering many products and developing and patenting new technology.

We rigorously test all products beyond industry standards to achieve quality and reliability. In fact we are so confident in our products that we can provide two year, three year and in the case of some products, lifetime warranties.

The Brigade Group is based in the UK, has subsidiary companies in the USA, Germany, Italy and The Netherlands, joint ventures in France and South Africa and is in partnership with over 50 specialist distributors worldwide, with current exports across all five continents.

Our wealth of experience has earned us a reputation for expertise. We act as an industry voice and are often called upon in an advisory capacity to sit on both legislative and international committees.

We understand your industry and the problems you face.

Driving Global Safety

Vehicle Safety Solutions

Brigade understands the many and complex safety issues of mobile applications, resulting in a flexible product range offering safety solutions for vehicles and plant. Whether you are operating on- or off-road, vehicle or machine, large or small, we can help.

We strongly believe in a complementary range of passive and active systems to warn and assist the driver whilst protecting workers, pedestrians and cyclists. Not only this, our systems help increase efficiency and decrease vehicle downtime, saving operators thousands of pounds.

In terms of saving lives we believe the status quo is never enough. We are constantly researching the latest and developing technologies to see how they can be used to improve safety for different mobile applications.

Many of our product ranges were initially introduced to the UK, Europe and even the world by Brigade. Several of our products are patented and unique to us.

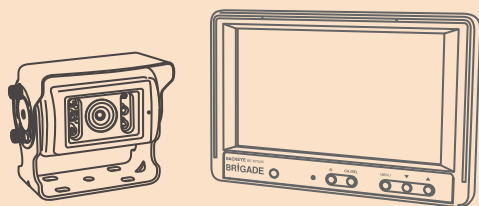

Accept no imitations.

Camera Monitor Systems

Backeye®

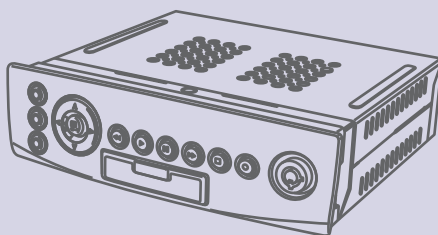

Camera monitor systems can help eliminate driver blind spots to prevent costly damage and ultimately save lives. Brigade's systems meet a host of on- and off- road health and safety and legislative requirements.

See pages 6-30

Mobile Digital Recording

Robust and reliable digital recording systems provide high quality video and data records. Ideally suited to large road going vehicles in the freight, waste, bus and coach industries. Add to your camera monitor system for a range of benefits.

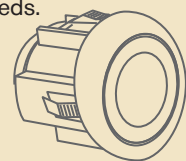

See pages 31-33

Ultrasonic Obstacle Detection

Frontscan® Backscan® Sidescan® Cornerscan™ Stepscan™

Sensor systems inform driver of distance between vehicle and any obstacles, whether moving or stationary. Perfect for road going commercial vehicles regularly operating in confined spaces or manoeuvring at low speeds.

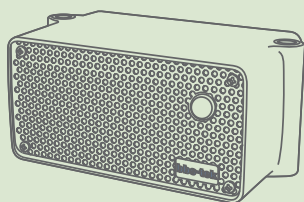

See pages 34-37

White Sound Warning Alarms

bbs-tek®

Vital audible safety devices to warn that a vehicle is manoeuvring. Unique to Brigade, White Sound® alarms (bbs-tek®) are the safest in the world and do not cause a noise nuisance. Endorsed by the Noise Abatement Society and PIEK and have been awarded the Quiet Mark. Options include smart alarms, which adjust appropriately to the ambient noise level.

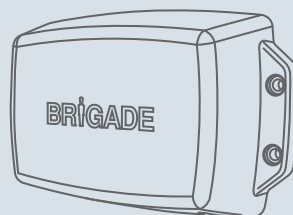

See pages 38-44

Radar Obstacle Detection

Backsense®

Robust long range sensor systems designed for harsh conditions. Inform driver of distance between vehicle and any obstacles, whether moving or stationary. Perfect for all machines working in construction, mobile plant and refuse.

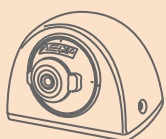

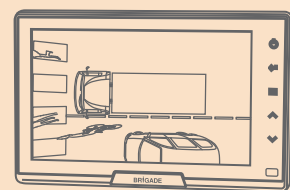

See pages 45-47

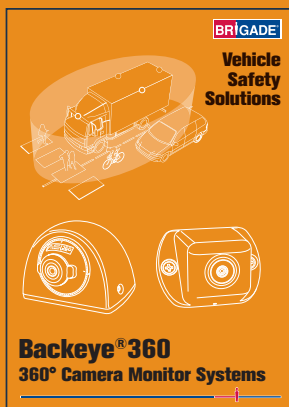

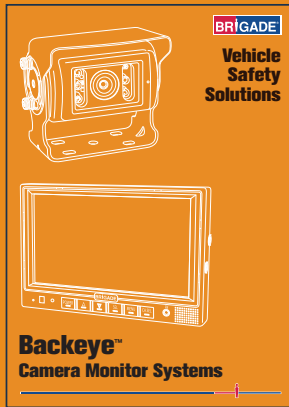

Camera Monitor Systems

Backeye® 360

Intelligent camera monitor system that provides the driver with a bird's-eye view of the vehicle. Four camera images are processed into a single 360°, real-time picture on the driver's monitor.

See pages 8-11

Available Brochures

Backeye®

All-round visibility for commercial vehicles and mobile plant.

Which range is for you?

Elite

Top of the range systems for comprehensive blind spot coverage. Suitable for large road-going vehicles, specialist applications, heavy duty off-road machines or where the cab is exposed to the elements.

Select

Mid-range systems suitable for medium to large road-going vehicles.

Essential

Entry level reversing solution ideally suited to light commercial vehicles and vans.

camera monitor systems

Choosing your camera monitor system

Select from our range of popular complete standard systems featured on pages 21-25 or build your own system referring to the camera monitor compatibility chart below, adding cables, adapters and ancillaries to connect and upgrade your system.

SELECT 360° CAMERA SYSTEMS

BN360-000 - Backeye 360 Select system

4483

- IPX7 cameras
- 12-24Vdc
- Size (WxHxD) ECU
170 x 126.4 x 36mm
- Size (WxHxD) Camera
35.4 x 60.7 x 45.8mm
- 2 year warranty

Contents

- 1 x BN360-ECU-10
- 4 x BN360-100C cameras
- 1 x BN360-VBV-L4015 Video-out cable to connect to SELECT range monitor.

Note: Monitor and camera cables not included

Features

- 360° single image
- Triggered views (rear, left and right)
- 4 x ultra-wide viewing angle cameras (HxV) 185° x 142°
- 1/3.6" CMOS sensor
- TV system: NTSC

Power

- Power consumption: 15 Watts
- Current: 1.23 Amps

Durability & Standards

- Mechanical vibration: 1G
- Operating temperature: -30 to +75°C
- CE marked
- EMC approved: E
- HALT tested

Note: A calibration kit is required for installation.

SELECT 360° CABLES AND ADAPTERS

BN360-L120	20m camera cable	4493
BN360-L115	15m camera cable	4495
BN360-L110	10m camera cable	4496
BN360-L105	5m camera cable	4498
BN360-L1025	2.5m camera cable	4499
AC-304	Splitter cable for MDR (1 required per camera)	4738

OPTIONAL MOUNTING BRACKETS

BN360-100C-BKT01	Adaptable mounting bracket - can be shaped to allow installation on non-vertical surfaces	4649
BN360-100C-BKT02	Mounting bracket to adjust camera angle	4714
BE360-CD	Deflector to shield camera from knocks (To be used with BN360-100C-BKT02 Mounting bracket)	4701
BN360-100C-BKT03	Deflector to shield camera from knocks	4743

REQUIRED ADDITION FOR ARTICULATED VEHICLES

BN360-Enclosure	IP66 Enclosure kit to enable ECU to be installed on outside of vehicle	4723
Note: Coiled cable kit or wireless connector also required		

SELECT RANGE 360° CAMERA MONITOR SYSTEMS

Complete kits including monitor, Select 360 camera system, cables and adapters

SE-7104F-100 - 360 camera monitor system for large rigid vehicles

4618

- 1 x VBV-7104FM - 10.4" monitor
- 1 x BN360-000 360 system
- 1 x BN360-L110 - 10m camera cable
- 2 x BN360-L115 - 15m camera cables
- 1 x BN360-L120 - 20m camera cable
- 1 x BN360-VBV-L4015 - video out cable

See individual products for detailed specifications

- 2 year system warranty

SE-770-100 - 360 camera monitor system for large rigid vehicles

4804

- 1 x VBV-770M 7" monitor
- 1 x BN360-000 360 system
- 1 x BN360-L110 - 10m camera cable
- 2 x BN360-L115 - 15m camera cables
- 1 x BN360-L120 - 20m camera cable
- 1 x BN360-VBV-L4015 - video out cable

See individual products for detailed specifications

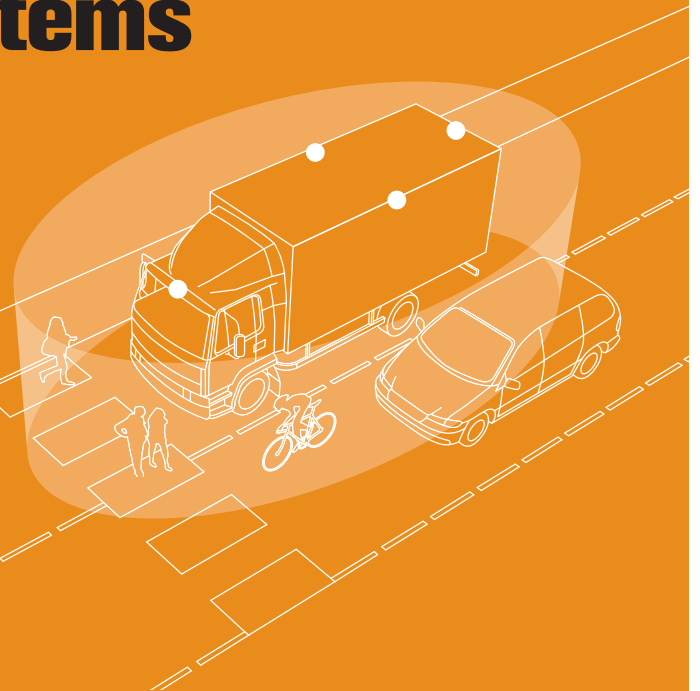

- 2 year system warranty

360° camera systems

4 Cameras
1 Image
0 Blind spots

Backeye®360 is an intelligent camera monitor system designed to assist low-speed manoeuvrability by providing the driver with a complete surround view of the vehicle in real time.

Ultrawide-angle cameras mounted on the front, sides and rear of the vehicle capture the surrounding areas of the vehicle including all blind spots. Simultaneous digital images from these cameras are then processed and 'video stitched' resulting in a 360° birds-eye view within a single image. The software also instantly eliminates any fisheye camera distortion delivering a clear, real-time picture on the driver's monitor.

ELITE 360° CAMERA SYSTEMS

ASL360-SV - Backeye 360 Elite

4328

- IP68 cameras
- 12-24Vdc
- Size (WxHxD) ECU
225 x 35 x 120mm
- Size (WxHxD) Camera
70 x 50 x 62mm
- 2 year warranty

Contents

- 1 x ASL360-ECU
- 4 x ASL360-CM2 cameras

Note: Monitor, camera cables and adapters NOT included

Features

- 360° single image
- Flexible blend widths and positioning
- Up to 30 frames per second
- Self-monitoring to eliminate frozen images
- Triggered views
- 4 x ultra-wide viewing angle cameras (HxV) 185 x 180°
- 1/4" CMOS sensor
- TV system: PAL

Power

- Power consumption:
Camera: 0.5 Watts
ECU: 5.0 Watts
- Current:
Camera: 0.04 Amps
ECU: 0.4 Amps

Durability & Standards

- Operating temperature:
-40 to +85°C
- CE marked
- EMC approved: E

Note: A calibration kit is required for installation. Available to Brigade trained fitters only

CABLES AND ADAPTERS

ASL360-L120	20m camera cable	4333
ASL360-L115	15m camera cable	4334
ASL360-L110	10m camera cable	4335
ASL360-L1025	2.5m camera cable	4336
AC-054	2.5m adapter cable to connect ECU to monitor via AC-016 / AC-024 (BNC B to Phono A)	4340
AC-016	Adapter cable to connect AV/Phono to Elite monitor	2150
AC-024	Adapter cable to connect AV/Phono to Select monitor	3183

OPTIONAL MOUNTING BRACKET

BE360-CD	Deflector to shield camera from knocks	4701
----------	--	------

REQUIRED ADDITION FOR ARTICULATED VEHICLES

BN360-Enclosure	IP66 Enclosure kit to enable ECU to be installed on outside of vehicle	4723
-----------------	--	------

Note: Coiled cable kit or wireless connector also required

ELITE RANGE 360° CAMERA MONITOR SYSTEMS

Complete kits including monitor, Elite 360 camera system, cables and adapters

SE-970W-000 - 360 camera monitor system for large rigid vehicles

4341

- 1 x BE-970WM - 7" waterproof monitor
- 1 x ASL-360SV 360 system
- 1 x ASL-L110 - 10m camera cable
- 2 x ASL-L115 - 15m camera cables
- 1 x ASL-L120 - 20m camera cable
- 1 x AC-016 - phono adapter cable
- 1 x AC-054 - adapter cable

See individual products for detailed specifications

- 2 year system warranty

SE-870L-000 - 360 camera monitor system for large rigid vehicles

4342

- 1 x BE-870LM - 7" monitor
- 1 x ASL-360SV 360 system
- 1 x ASL-L110 - 10m camera cable
- 2 x ASL-L115 - 15m camera cables
- 1 x ASL-L120 - 20m camera cable
- 1 x AC-016 - phono adapter cable

- EMC approved: E

ELITE MONITOR

BE-865DDM - Double DIN 6.5" Digital LCD Monitor
3935

- 12-24Vdc
- 4 camera inputs
- Size (WxHxD) Double DIN
188 x 116 x 142mm
- 3 year warranty

Features

- Shutter / Tilt camera compatible
- Backlit touch screen button panel
- 'Button-lock' anti tamper feature
- 5 Auto-triggers with option to select 3 triggers for split mode
- Mirror / Normal switching from menu
- On screen distance and vertical line markers
- Audio
- Speed switch trigger to operate system or determine split screen display
- Sun shield
- Multi-lingual menus
- Audio / video inputs / output
- Auto-switching PAL / NTSC

Picture Quality

- LED backlighting (gives 20,000 hours life)

- Anti-glare screen
- Resolution: 800 x 480
- Contrast ratio: 500:1
- Brightness: 500cd/m²
- Viewing angles:
Side 70° x Top 50° x Bottom 70°

Power

- Power consumption: min 15.4 Watts
- Current: min 1.4 Amps

Durability & Standards

- Mechanical vibration: 6G
- Operating temperature: -40 to +70°C
- CE marked
- EMC approved: e
- ISO 16750
- R46 and 2003/97/EC approved for indirect vision (with compliant cameras only)

ELITE MONITOR

BE-856GM - 5.6" Digital LCD monitor

3756

- 12-24Vdc
- 2 camera inputs
- Size (WxHxD)

OEM CAMERA MONITOR ADAPTER CABLES

A further range of OEM specific adapters to connect Brigade cameras to factory fit monitors is available - Please contact us for details

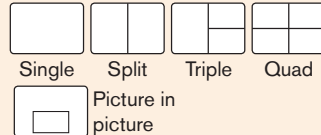

CAMERA MONITOR SYSTEM ANCILLARIES

EDM-50 - Multi-camera module and screen splitter

2152

- 12-24Vdc
- 4 camera inputs
- Size (WxHxD)
154 x 28 x 105mm
- 2 year warranty

Plus Additional In-built Image Options

Features

- Shutter camera compatible
- Tilt camera compatible
- AV input to accept DVD, sat nav or other add-ons
- 5 manual or auto-triggers for each camera
- On screen distance markers
- Mirror / Normal image switch for each camera
- Selectable camera audio
- Auto-scanning function
- Compatible across Brigade camera monitor range (adapters required for Select series)

Power

- Power consumption: 20 Watts

Durability & Standards

- Mechanical vibration: 5G
- Operating temperature: -25 to +70°C
- CE marked
- EMC approved: e

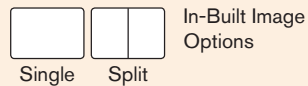

CAMERA MONITOR SYSTEM ANCILLARIES

SS-002 - Twin camera screen splitter

3044

- 12-24Vdc
- 2 camera inputs
- Size (WxHxD) 147.5 x 37 x 78mm
- 2 year warranty

Features

- Offers split screen option for monitors without in-built functionality
- 3 auto-triggers for each camera
- TV System: PAL / NTSC
- Manual Mirror / Normal switching
- Compatible across Brigade camera monitor range (adapters required for Elite series)

Power

- Power Consumption: 10.8 Watts

Durability & Standards

- Mechanical vibration: 10G
- Operating temperature: -40 to +70°C
- EMC approved: e

CAMERA MONITOR SYSTEM ANCILLARIES

LS-20-A - Low speed trigger module (normally closed)

3177

- 12-24Vdc
- Auto-triggers safety equipment at the designated speed
- Size (WxHxD)
61 x 36 x 94mm
- 2 year warranty

Features

- Simple to change triggering speed using DIP switch
- Normally closed - safety device on by default, turning off at designated speed
- Compatible with Brigade camera monitor systems

Power

- Power consumption: 0.1 Watts
- Current: 0.05 Amps

Durability & Standards

- Mechanical vibration: 10G
- Operating temperature: -40 to +70°C
- CE marked

CAMERA MONITOR SYSTEM ANCILLARIES

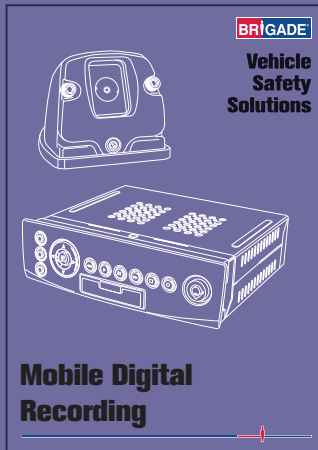

SC-1000-ECU - Shutter camera module

3666

- Allows BE-810C shutter camera to function with any Elite range monitor (using Elite range cables).

- Use AC-007 adapter to connect to Select monitor.
- CE marked
- EMC approved: e

mobile digital recording

Available Brochure

By recording footage from vehicle mounted cameras, mobile digital recording provides an accurate witness, giving irrefutable evidence in the case of false claims, crash for cash incidents or vandalism. Disproving these claims means companies can make major cost savings, whilst importantly supporting their drivers, who are often the subject of increased scrutiny.

- False claim prevention
- Protection for drivers who may be wrongly accused
- Provides irrefutable evidence in the case of accidents and legal proceedings
- Useful in reducing shrinkage and catching perpetrators
- Driver training and best practice
- Peace of mind for passengers and drivers

MOBILE DIGITAL RECORDER

MDR-304A-500 - 500GB hard disk with improved data download speed 3880

- **12-24Vdc**
- **4 camera inputs**
- **4 trigger/alarm inputs**
- **Lockable central caddy**
- **Fast, easily downloadable recordings and data**
- **Size (WxHxD)**
178 x 50 x 173mm
- **3 year warranty**

Features

- Black box recorder with docking station and anti-vibration mounting
- Removable central caddy with integral hard disk and lockable keypad
- Up to 780 hours recording (based on 6 frames per second and standard image quality)
- Recording can be triggered by motion detection even when vehicle inactive
- Record images prior to alarm activation and after vehicle turned off
- Easy to use via 'DVD' style front panel
- Video and audio recordings saved on hard disk
- Download data to PC 10x faster than previous model via high speed USB 2.0 interface. Alternatively save data to removable SDHC card
- Simple to use HDD viewer software enables search of recorded video and export of critical moments to AVI video or static JPEG files

- 2 trigger / alarm outputs to trigger other devices
- Compatible with Brigade camera monitor systems
- Optional GPS sensor to record location, route and speed data
- Optional G sensor to record X, Y and Z impact data in the event of an accident
- Manually selectable PAL / NTSC

Picture Quality

- MPEG4 image compression allows high quality image resolution
- Choice of recorded image quality – low to high resolution
- Record at between 2 and 30 frames per second per channel

Durability & Standards

- Mechanical vibration: 2G
- Mechanical Shock: 15G
- Operating temperature: -20 to +50°C
- EMC approved: e

MOBILE DIGITAL RECORDER

EDR-101-008 - Event Data recorder

4505

- 12-24Vdc
- 1 in-built camera plus 1 external camera input
- Fast, easily downloadable recordings and data
- Size (WxHxD)
85 x 49.5 x 25.5mm
- 1 year warranty

Contents:

- 1x Recorder
- 1x GPS Antenna
- 1 x power cable
- 1x Mounting Bracket & adhesive pad
- 1x 8GB Micro SD card
- 1x Micro SD to SD adaptor
- 1x Software CD
- 1x user manual

Features

- High definition video capture for clear incident recording
- 112° wide angle camera lens
- 4 recording modes:
 - Normal
 - Event - shock sensor enables 10 seconds before and after an event to be recorded
 - Parking - movement engages event recording as above
 - Emergency - Driver presses the function button
- Up to 4 hours recording on supplied micro SD card (supports up to 32Gb)
- Simultaneous normal and event recording

- Continuous recording with automatic overwriting of oldest data.
- Audio function for additional event information
- GPS module for locating tracking
- Viewing software allows two cameras to be viewed, alongside speed, G-force levels and location
- Software allows still images (jpeg) to be created with embedded date and time

Picture Quality

- CMOS sensor
- Video resolution: HD + VGA 1280 x 720 pixels
- MPEG4 image compression allows high quality image resolution
- Choice of recorded image quality – low to high resolution
- Fast frame rate, 30 frames per second, for smooth images

Durability & Standards

- Mechanical vibration: 2.5G
- Operating temperature: -10 to +50°C
- CE self DofC

ultrasonic obstacle detection

Sensor systems inform driver of distance between vehicle and any obstacles, whether moving or stationary. Perfect for road going commercial vehicles regularly operating in confined spaces or manoeuvring at low speeds.

Which system do you need?

Sidescan®

4 sensor system fitted to side of vehicle increasing safety when turning or low speed manoeuvring. Particularly relevant for near side blind spot where cyclists or pedestrians can otherwise go undetected.

Backscan®

4 sensor system fitted to rear of vehicle as an invaluable aid to safe reversing. Gives greater protection to pedestrians and workers, whilst minimising damage to vehicle and other objects.

Cornerscan™

3 sensor system fitted to near side corner of vehicle cab detects objects in front near side blind spot. Minimises the risk of damage to the vehicle cab whilst manoeuvring at low speed.

Frontscan®

4 sensor system fitted to front of vehicle improving safety when manoeuvring at low speed. Particularly relevant for front blind spot on high cabs where low objects or pedestrians can be hidden.

Stepscan™

2 sensor system fitted to near side cab step giving awareness to the driver of objects to the side when turning and reversing. Minimises the risk of damage to the vehicle cab from otherwise unseen objects.

SIDESCAN® ULTRASONIC DETECTION SYSTEM

SS-4000W - Sidescan sensor system

3711

- 4 sensor system
- 12-24 Volts
- 1.0/1.5m detection range - (selectable via dip switch)
- Audible distance warning
- Underslung and flush-mount fixings included
- 2 levels of sensitivity - (selectable via dip switch)
- 2 year warranty

Contents

- 4 x sensors
- Buzzer
- 4 x 0° flush mount fixings
- 4 x 11° flush mount fixings
- 4 x underslung fixings
- Waterproof control box
- 10m buzzer cable
- 4 x 4.5m sensor cables
- 2 x 2.5m extension cables

Features

- Obstacles detected in under 200 milliseconds
- Environment Learning Mode prevents false alarms from ancillary

equipment that intrudes in the first 100cm of the detection zone

- Self-diagnostic function

Durability & Standards

- Operating temperature: -40 to +80°C
- Waterproof sensors to IP68
- Waterproof control box to IP69K
- CE marked
- EMC approved: E

ADDITIONS FOR ARTICULATED VEHICLES

BACKSCAN® ULTRASONIC DETECTION SYSTEM

BS-4000W - Backscan reversing sensor system

3744

- 4 sensor system
- 12-24 Volts
- 2.5m detection range - outer sensors 2.5m/0.6m (selectable via dip switch)
- Graduated visual and audible distance warning display
- Underslung and flush-mount fixings included
- 50cm compensation range for sensors fitted inboard of vehicle rear (selectable via dip switch)
- 2 year warranty

Contents

- 4 x sensors
- Visual and audible display
- 4 x 0° flush mount fixings
- 4 x 11° flush mount fixings
- 4 x underslung fixings
- Waterproof control box
- 15m display cable
- 4 x 2.5m sensor cables

Features

- Obstacles detected in under 200 milliseconds
- Environment Learning Mode prevents false alarms from tow-hooks and other ancillary equipment that intrudes in the first 100cm of the detection zone

- Self-diagnostic function
- 1 x Trigger output

Durability & Standards

- Operating temperature: -40 to +80°C
- Waterproof sensors to IP68
- Waterproof control box to IP69K
- CE marked
- EMC approved: E
- 1.5m detection range model also available - Please contact us for details

Available Brochure

Vital safety devices needed to warn workers and pedestrians that a vehicle is manoeuvring. Our range includes bbs-tek® white sound® alarms; smart alarms which adjust to the ambient noise level; and speaking alarms, which provide a real speech warning of imminent danger.

Which alarm is for you?

Heavy duty

For plant, quarry and construction machines or environments with high ambient noise.

Medium duty

Ideal for commercial road going vehicles and environments with mid level ambient noise.

Vehicle specific

Petrol tanker (ADR) and electric forklift (High Voltage) options available.

reversing and warning alarms

bbs-tek® white sound®

The safest alarms in the world due to their instant locatability and directional sound. The multi-frequency alarms are only heard in the danger zone, thus eliminating noise nuisance for local residents.

bbs-tek® smart reversing alarms

Continually adjust to 5-10 decibels above ambient so ideal in varying noise level environments.

bbs-tek® reversing alarms

Backchat®

Speaking warning alarms that reproduce real speech with unrivalled quality and clarity.

Speaking alarms

Include standard messages for reversing, handbrake warning and attack alarms.

Bespoke speaking alarms

Define your own message as required.

Nightshift® speaking alarms

Include built-in alarm cut-out for night-time use.

Vehicle intercom

Two-way communication system provides clear, reliable communication between the driver and others not in the cab.

WHITE SOUND® SMART REVERSING ALARM

SA-BBS-107 - Self adjusting heavy duty - 87-107 Decibels

1400

- 12-24 Volts
- IP68
- Size (WxHxD)
172 x 79 x 95mm
- Lifetime warranty

Features

- Alarm continually adjusts to 5-10dB above ambient
- Multi frequency broadband sound
- Instantly locatable
- Sound confined to danger area
- Eliminates noise nuisance
- Sounder unit: Driver
- Hole centres (mm): 153

Power

- Current: Max 1 Amp

Durability & standards

- Mechanical vibration: 10G
- Operating temperature: -40 to +85°C
- CE marked
- SAE J994

ALARM ANCILLARIES

TCO-47 - Auto-reset Backalarm cut-out (dash mount)

0663

• 12-24 Volts

• 2 year warranty

Features

- Single touch timed relay
- Allows driver to cut-out Backalarm if reversing between 11.30pm-7.00am
- Auto-resets after 3-4 mins delay

Durability and Standards

- CE marked
- EMC approved

ALARM ANCILLARIES

NS-2 - Nightshift Backalarm cut-out switch

0334

NS-3 - Nightshift Backalarm cut-out switch (auto gear box)

0974

• 12-24 Volts

• IP68

• 2 year warranty

Features

- Double engage reverse to cut-out Backalarm
- Resets when reverse gear disengaged (longer time delay for NS-3)
- No wiring necessary to cab

Durability and Standards

- CE marked
- EMC approved

radar obstacle detection

Available Brochure

Backsense®

Robust, long-range, continuous wave radar sensor systems designed for harsh conditions. Informs driver of distance between vehicle and any obstacles, whether moving or stationary. Perfect for all machines working in construction, mobile plant and refuse.

Choosing your model

Programmable

Top of the range programmable system allowing bespoke detection areas up to 30m in length and 10m in width, with the ability to calibrate out fixed objects or bodywork.

Fixed

Fixed detection length and width. Ideal on machines where no calibration is required. Detection range of up to 6 metres.

NEW**PROGRAMMABLE BACKSENSE OBSTACLE DETECTION**

In-cab display

BS-8000 - Programmable detection range

Sensor, AV display, 9m cable

4530

- 12-24 Volts
- Detection length: 3 to 30m
- Detection width: 2 to 10m
- Rugged design for harsh environmental conditions
- Sensor size (WxHxD)
217 x 129 x 50mm
- IP69K sensor
- 2 year warranty

Features

- Frequency modulated continuous wave (FMCW) radar technology
- Effectively detects stationary, moving and multiple objects
- 1 activation input
- 1 trigger output
- Programmable:
Detection area
Blind zones - system ignores fixed objects
Trigger activation point
Buzzer
- 5 stage audible and visual distance warning display

- Resistant to water, moisture, dust, vibration, heat, cold, mud and glare

Power

- Current: 0.6 Amps

Durability & Standards

- Mechanical shock: 100G
- Operating temperature: -40 to +85°C
- CE marked
- EMC approved: E
- BS EN 13309: 2010
- ISO13766: 2006

NEW Backsense®

Everything you
expect from a
premium obstacle
detection radar...

Backsense® is a new affordable radar system from Brigade designed to help reduce collisions in tough working environments. It offers a controlled beam pattern that ensures targeted detection with fewer false alerts than alternative radar systems.

Available in 3 fixed-length models and a fully configurable version for bespoke areas of up to 30m.

ALL NEW radar. Built by Brigade.

Amp

Unit of electric current.

Approved for indirect vision

Product meets directives (e.g. 2003/97/EC, 2007/38/EU) or standards (e.g. Regulation 46) with regard to its use on vehicles for indirect vision e.g. giving visibility in otherwise blind spots.

Auto-trigger

Enables automatic triggering of an action i.e. display of rear camera view when reverse gear engaged.

A/V input/output

Communication connection between electronic devices.

Input

Receives audio/visual signals such as from DVD or satellite navigation.

Output

Sends audio/visual signals to other devices such as to mobile digital recorder.

Brightness

Brightness of the picture displayed on a monitor, measured in candelas per square metre (cd/m^2). Higher the measure the brighter the picture.

CCD (Charged-Coupled Device)

A tiny photocell used in cameras to convert light into a digital signal.

Contrast

Light intensity ratio of a display device between darkest and lightest colour produced.

CE mark

Confirmation that a product is in conformity with the essential requirements of any applicable directives e.g. 2004/108/EC (relating to Electromagnetic Compatibility).

Decibel

Unit of measure of the pressure (intensity) of sound. The higher the rating the more intense the sound.

EMC (Electro-magnetic compatibility)

A test to determine the unwanted effects of electromagnetic interference.

E

Complies to United Nations Commission for Europe (UNECE) standards e.g. ECE 10.03

e

Complies to Council of the European Union standards e.g. 2006/28/EC, 2009/19/EC

Frequency

Number of times a sound source vibrates per unit of time, measured in hertz (hz). The higher the rating the higher the pitch.

GPS (Global Positioning System)

Global satellite system providing positioning and timing services to worldwide users on a continuous basis.

HALT (Highly Accelerated Life Test)

A comprehensive stress test applied to electronic equipment to identify design weakness.

glossary

Illumination distance (camera)

Distance a camera with infrared LEDs can see in ultra-low light conditions, measured in metres.

IP## (Ingress Protection)

An international classification for the sealing of electrical equipment against the intrusion of solid objects (digit 1) and liquids (digit 2). Higher the rating the better protection in each case.

ISO 13766:2006

Specific standard for earthmoving equipment, includes requirements for some additional tests that are not covered in the tests for 'E' or 'e' under EMC.

ISO 15008:2003

Standard relating to the specifications and compliance procedures for in-vehicle visual presentation i.e. in relation to monitors.

ISO 16750

Standard providing guidance regarding environmental conditions commonly encountered by electrical and electronic systems installed in vehicles.

LCD (Liquid Crystal Display)

Thin, flat display device made up of any number of colour or monochrome pixels i.e. monitor screen.

LED (Light Emitting Diode (camera))

Emits infrared light for high efficiency and performance in ultra-low light.

LED (Light Emitting Diode (monitor))

Used to backlight the monitor display for crisp images and superior image quality.

Mechanical shock

Level of sudden acceleration or deceleration, such as impact or being dropped, to which product will still perform. Measured in gravitational force (G).

Mechanical vibration

Level of continuous or repetitive motion, such as engine vibration, to which product will still perform. Measured in gravitational force (G).

NAS-PIEK

The standard for quiet delivery vehicles in the UK, certified by the Noise Abatement Society.

NTSC (National Television Systems Committee)

TV colour encoding standard.

PAL (Phase Alternating Line)

TV colour encoding standard.

Resolution (RGB)

Number of pixels used to display an image. Measured in Width x 3 channels (Red, Green, Blue) x Height.

SAE J994

Performance testing for electrically operated reversing alarms primarily intended for use on off-road, self-propelled construction and industrial machines.

SD Card

Small portable memory card to store digital data.

Sounder unit

Unit which produces the sound of an alarm.

TV Lines

Number of horizontal lines used to create an image.

USB port

Communication connection between electronic devices i.e. to download data from mobile digital recorder.

Viewing angles (camera)

The maximum angle of vision.

Viewing angles (monitor)

The maximum angle at which an image can be successfully viewed. Measured from the centre point on the monitor.

Watt

A measure of the power needed to drive a product.

warranties

PEACE OF MIND FROM BRIGADE

The quality of our product range is the cornerstone on which the continuing relationship with our customers is built. To reflect our confidence in the reliability of our products, some have a lifetime warranty. Many others have a 3 year warranty and the rest have a 2 or 1 year warranty. The following quick reference chart indicates the warranty available on Brigade products.

LIFETIME
WARRANTY

Lifetime Warranty (covers the alarm for the life of the vehicle)

bbs-tek® reversing alarms (all models featured in this catalogue)
Self-adjusting Backalarms (SA-range)

3
YEAR
WARRANTY

3 Year Warranty

Elite CMS range (all monitors and cameras with a BE prefix)
MDR digital recorder

2
YEAR
WARRANTY

2 Year Warranty

All other products.

1
YEAR
WARRANTY

1 Year Warranty

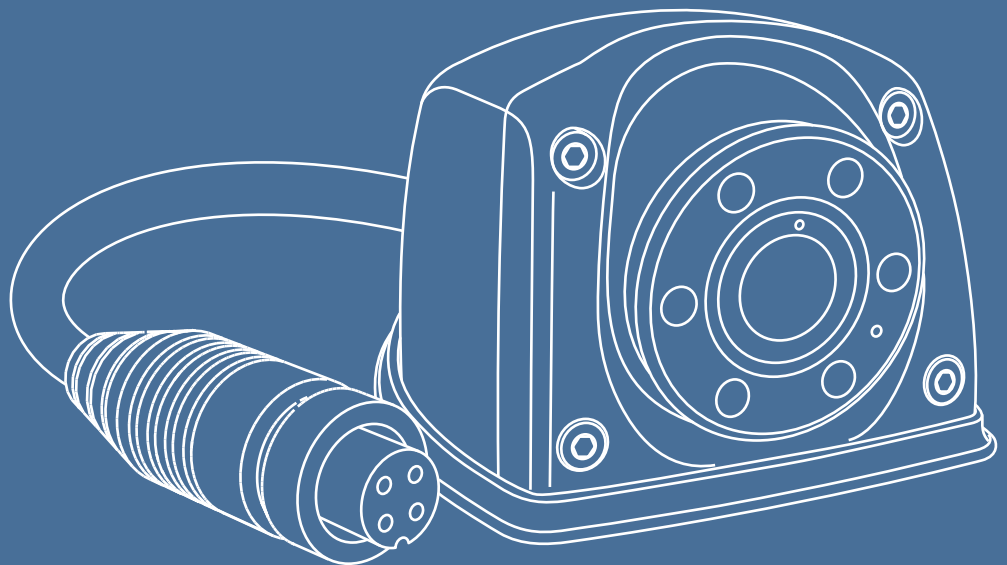

Essential camera monitor system.
EDR digital recorder

Warranty Terms and Conditions

Brigade warrants all goods to be free from defect in material and workmanship in normal use provided that they have been installed and operated in accordance with the instructions supplied. The commencement date of all warranties is the date of delivery to the purchaser unless otherwise agreed in writing by Brigade. The period during which the warranty applies is stated above. Brigade make no other warranty, express or implied, with respect to the goods, their marketability, quality or fitness for any particular use or purpose. In particular, but without prejudice to the general provisions of the conditions of sale, no responsibility is assumed for incidental or consequential loss by reason of any warranty express or implied. Full details of Brigade's Terms and Conditions are contained in the Price List.

Brigade Electronics Group Plc reserves the right to change terms, conditions and specifications shown in this catalogue at any time.
